

Award winning credit insurers in the construction sector

Institute of Credit Management winners 2013

Credit Indemnity
& Financial
Services

High levels of business failure in the construction sector have prompted many SIG customers to consider credit insurance.

SIG requested help for its Customers from specialist insurance broker Credit Risk Solutions Ltd (CRS) who, in conjunction with the underwriter Credit Indemnity & Financial Services (CIFS), has developed a new and innovative credit insurance facility for SIG Customers.

Benefits of the facility include:

- Access to competitive premium rates.
- A bespoke 'construction' wording extending cover, where appropriate, to recognise applications, variations, day work, etc.
- Access to dedicated construction underwriters with expert knowledge of the sector and your customer base.
- Support in tailoring cover to your requirements, training on policy administration, ongoing advice and assistance with credit limits, overdue accounts, claims etc.

For more information, or if you are interested in obtaining a no obligation quotation please contact:
